

## TASK TOBACCO-USE PREVENTION

Project for Kansas Youth

January – April 2010

Mini Grant Application Form

Financial support for this program is being provided by the **Kansas Health Foundation**

**TASK** is the youth-led movement in Kansas to promote tobacco free teens and unite communities to create one strong voice standing against the tobacco industry. Tobacco Free Kansas Coalition announces another opportunity to expand youth-led efforts to increase the numbers of Kansas youth committed to tobacco use prevention by learning how tobacco use affects health and how young people can motivate themselves and their peers to avoid addiction to tobacco products that cause widespread disease and death.

**What:** Mini Grants of up to \$1,250 will be awarded on a competitive basis to youth group applicants with creative, youth-led media projects and other activities that focus on protecting themselves and their peers from experimenting with and becoming addicted to cigarettes and tobacco products. Youth group grantees will become new TASK Companies.

**Who:** Youth groups of 12 to 18-year olds from Kansas may apply for grants by 1) submitting an application, 2) including an adult sponsor for their efforts, and 3) designating an organization that can receive, monitor and distribute grant funds expenditures.

**When:**

- Mail, fax or email your grant application (with signatures) by close of business on Dec. 18. Note: emailed versions must have scanned signatures on the applications.
- Grant awards will be announced by Jan. 15.
- Grant activities should be implemented between Jan. 22 and April 30, 2010
- Successful applicants will be expected to submit a final report and copies of all media products by May 14, 2010.

**Why:** Currently 21% of Kansas youth say they smoke. Kansas studies show most adult smokers began using cigarettes as teens. This grant award allows Kansas teens to design their own youth-led projects to help at-risk youth avoid addiction to tobacco and to identify and counter the influence tobacco has in their communities. These grants will support an expansion of TASK, a statewide network of teens working to help their peers remain tobacco free.

**Special Consideration:** One objective of this program is to increase the number of tobacco free schools and unified school districts as a way of helping Kansas youth grow up tobacco free.

**Need More Help?** Requests for assistance in developing grant proposals should be addressed to:

## TASK TOBACCO-USE PREVENTION

### Project for Kansas Youth January – April 2010 Past Project Examples

**Although a variety of youth-led activities can be set up for this mini-grant, each project must also include the design and development of at least three media products that can be shared with the community and with other youth groups. These products could be print media (including local newspapers or magazines), radio or electronic public service announcements, including television or Internet video; Power Point presentations, contest materials, blogs, online groups and other social networking systems, etc. Here are some sample ideas for tobacco prevention projects.**

- Build a float for the homecoming parade, hand out key chains with tobacco free message.
- Organize a short film contest with a tobacco free theme.
- Organize a tobacco-free day for a specific event in your community or at a specific place and advertise the effort.
- Develop a resolution with a tobacco-free teen message for presentation to your local city council or commission, your county commission, your school board, a PTA group, or local citizens' group.
- Organize a flash mob—and ensure that you have media coverage. (A flash mob is a large group of people who assemble quickly in a public place, perform an unusual action for a brief time, and then quickly disperse.)
- Put up posters around town and hand out flyers for a tobacco-free day. Have the theme/message of the posters or flyers be related to tobacco education and tobacco free county fairs, rodeos or other community events.
- Organize a parent/teen meeting in the community to discuss spit tobacco use or smoking by young people and the ways that youth are fighting back. Get the newspaper to report on the meeting. Invite local residents and policy makers to come to the meeting.
- Develop a tobacco free script for a radio public service announcement and work with local radio stations to have it aired.
- Develop newspaper ads with a tobacco-free message for either the local paper or your school paper.
- Prepare an educational presentation on the youth tobacco prevention project for community forums, town hall meetings, school assemblies, PTO organizations, local youth groups, and church assemblies.
- Arrange panel discussions or dramatic presentations to air on school news channels or at a school-wide event. (e.g. Kick Butts Day)
- Work with local health department and prevention agencies to set up tobacco-free informational events/activities associated with community health or tobacco-free days
- Design and distribute palm cards with tobacco-free topics or tobacco marketing strategies and provide media coverage.
- Develop video/photo materials for placing on Facebook, MySpace, YouTube, or other social networking systems, including Flickr, blogs, AIM icons, widgets and other logos.
